Highly skilled backend developer with 5+ years of experience in designing, developing, and deploying web application programs that expedite the efficiency and effectiveness of organizational success. I have a solid understanding of the Node.js ecosystem, and I am well-versed in using various libraries and framework. My expertise includes developing RESTful APIs, building scalable web applications both front-end and back-end components, integrating third-party services, and deploying applications to production.

PAUL ADELEYE – Backend Developer

Address:
Lagos, Nigeria
